1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: a demodulation apparatus includes a code table including a plurality of the code words, wherein similar ones of the code words are arranged to be grouped together, and a soft demodulator to calculate probabilities of individual bits that constitute the code words, and to generate a soft demodulation value of the data word. The soft demodulator reuses a result of a calculation on a code word portion in the code table, without performing the calculation again, when a current code word has an identical portion to the code word portion already calculated (see claim 5).
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
